An Explanation

and a Promise.

We are not proud of the quality of White's Wafer Oatmeal during the latter part of the past season any more than an honest baker could be proud of his war bread.

We, like him, have been the victims of circumstances which have been imposed upon us.

Happily, that unfortunate state of affairs is now ended so far as we are concerned because that we are concerned, because we have at our disposal at the present moment the most magnificent crop of prime Irish Milling Oats of unsurpassed excellence and flavour that it has ever been our good fortune to see.

Not only has our £500 Prize Oat Growing Scheme produced more than 4,000 extra acres of this most delectable and economical of all cereal foods, but the Irish White Oats crop,

We therefore can promise our patrons not merely a return to that excellence that has made White's Wafer Oatmeal the recognised standard in cereal foods throughout the English-speaking world, but, if that be possible, an even higher level of excellence

The new season's crop, fresh from our mills, with an aroma redolent of the sun-kissed cornfields, will be on every grocer's counter in a few days. Place your order now. No increase in price.
